

## GEOTERMS

---

Read Sections 1 and 2. Then create an illustrated dictionary of the Geoterms by completing these tasks:

- Create a symbol or an illustration to represent each term.
- Write a definition of each term in your own words.
- Write a sentence that includes the term and the words *Southwest Asia*.

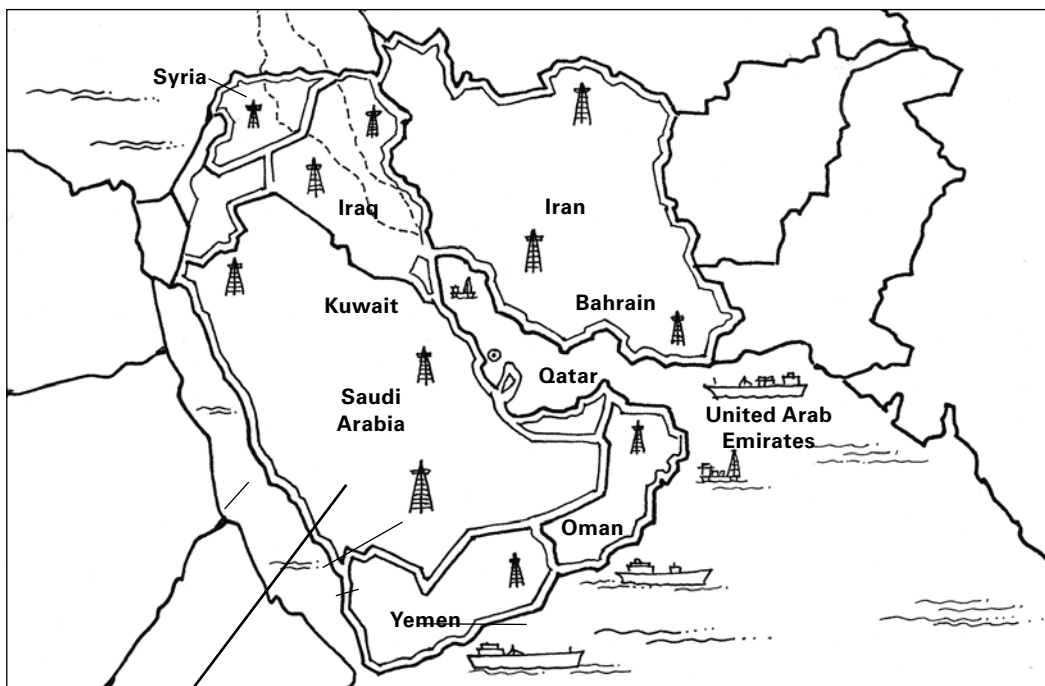

| <b>Geoterm and Symbol</b> | <b>Definition</b> | <b>Sentence</b> |
|---------------------------|-------------------|-----------------|
| crude oil                 |                   |                 |
| nonrenewable resource     |                   |                 |
| oil reserves              |                   |                 |
| renewable resource        |                   |                 |

Explain the title of Lesson 24 by adding to the map below.

- Around the map, write at least three sentences explaining how oil has affected Southwest Asia.
- Your sentences should mention at least three countries in Southwest Asia.
- Your sentences should use at least three of this chapter's Geotermis: *crude oil*, *nonrenewable resource*, *oil reserves*, and *renewable resource*.
- Connect each sentence to a specific part of the map with a line.

An example is done for you.

### Oil in Southwest Asia: How "Black Gold" Has Shaped a Region

Saudi Arabia has the largest known oil reserves in Southwest Asia.
